

The following are **2 examples** of a Business English course programme that we create according to each client's specific needs. We tailor the course to their individual training objectives to ensure an effective, waste-free and productive training intervention.

This curriculum was designed for an international buyers and sales team - the first group was at a lower advanced level and focussed on effective communication skills. The second group were beginners and focussed on office survival and basic functional tasks.

Lesson cycle:

- Review and reinforce previous lesson
- Introduction of next topic:
 - 1st half: presentation + confidence building + business skills
 - 2nd half: fluency & listening comprehension + language activation
- Role-plays and applied practice
